

## DIMMICK JURY DID NOT AGREE

SEVEN STOOD FOR ACQUITTAL AND FIVE  
FOR CONVICTION—WILL BE  
TRIED AGAIN.

SAN FRANCISCO, Sept. 15.—After deliberating for nearly forty-eight hours, the jury in the second trial of Walter Dimmick, on the charge of stealing and embezzling \$30,000 from the United States, was unable to agree at noon today and was discharged.

Seven jurors stood for acquittal and five insisted that the Government had proved its case.

When the jurors answered their names in the District Court this morning, Foreman Alex G. Bell rose and said, addressing Judge J. J. De Haven:

"We are evenly divided and there is no possibility of agreement. There has been no change in the vote since 2 o'clock Saturday afternoon."

"I regret much that you have been unable to render a verdict, and as you are convinced that it will be impossible to agree I will discharge you," answered Judge De Haven.

United States District Attorney Marshall B. Woodworth stated that a third trial of the case will be insisted upon by the Government.

The date will be fixed within a few weeks.

## UNIVERSITY SCIENTISTS TELLS ABOUT OVERHANGING SMOKE.

BERKELEY, Sept. 15.—The cloud of smoke and fog which has been hanging over the bay towns throughout the day has brought forth a considerable difference of opinion among the scientists of the State University. The greater part are of the opinion that the smoke comes from the burning forests of Oregon and Washington.

This view was expressed by Professor Frank Soule of the Civil Engineering Department, who has made a special study of climatological conditions: "For the past two or three days," he said this morning, "the barometer has been very low in the cities around the bay. There has been hence an atmospheric influx to this region. The air brings with it whatever substances it may have happened to have in it. Thus the air coming from Oregon and Washington brings with it the smoke of burning forests."

"The cloud of fog and smoke is very similar to that found in London. The fogs there are very much more murky

and heavy, but the principle is the same. A film of water surrounds the particles of carbon which make up the smoke, and we have the combination of fog and smoke, which has made the weather of London different from that of any other city in the world. We, today, are having a taste of London weather."

"The theory is very good," said Professor E. W. Hilgard of the Agriculture Department, who was connected with the Weather Bureau for a number of years, "but it is fatally weak at one point. The forests of Oregon and Washington are pine, and the smoke is that of redwood. I can hardly explain the phenomenon. I have never known of a similar condition except when a fire was either raging in the Santa Cruz mountains or on Mt. Tamaulipas. You can put it down for a certainty that the smoke is that of redwood. The odor is quite distinctive."

"I would not care to say anything," said Professor Leuchner of the Students' Observatory, "other than the phenomenon is that of a cloud of smoke, and it is not a fog. I cannot say where the smoke came from."

## PEOPLE WERE PILED IN HEAP.

STONE GAVE AWAY WHILE THE  
AUDIENCE WAS GOING INTO  
SYNAGOGUE.

ST. PAUL, Sept. 15.—While about 200 people were struggling to get into the new Sons of Zion synagogue to witness the dedicatory exercises the temporary steps leading to the entrance gave way and 500 people fell in a heap.

The police platoon, which led the procession to the church, broke ranks and rushed into the crowd, preventing further men, women and children from crushing one another in the scramble to get out.

When quiet had been restored, it was found that a few were bruised and cut, but no one had been fatally injured. Senator Alonzo R. Chapin, Mayor Robert A. Smith, and Congressman E. C. Stevens had just stepped off the steps when the crash came and so escaped injury.

## CUT THROAT AND WRIST.

THEN THE SUICIDE BEGGED THE  
DOCTOR TO TRY AND  
SAVE HIM.

REDLANDS, Cal., Sept. 15.—Alvin Benson Darrah committed suicide here early this morning by cutting his throat and slashing his wrist. He was found by the landlady at his lodging house, who heard an unusual noise in the room.

Upon investigation he was found covered with blood and died an hour later, begging the doctor to save him. He acknowledged to the physician that he had intended to kill himself.

On Friday Darrah was arrested for the alleged theft of a watch and was out on bail. It is said he was addicted to the use of narcotics. He had been here six months and was a sufferer from consumption. Among his effects was found a policy for \$5,000 in the Visalia Lodge of Foresters, in favor of his wife. Darrah formerly was a resident of Stockton.

## BIG FOREST FIRES RAGE IN THE NORTH.

Smoke in the Streets of Portland  
Very Thick—Heavy Losses  
by the Flames.

SEATTLE, Sept. 15.—A special to the Times from Kalama, where great loss of life from forest fires was reported Saturday night, says: "News from the fire on Lewis river yesterday confirmed the reports of Saturday night and adds to the losses. The fallen timber has blocked the only road leading up the river, so that work of the rescuers is slow."

"Twelve men with saws and teams left Woodland yesterday morning to clear out the road as fast as possible. A party of ten persons with a team was known to be camping in the timber. The charred remains of the team and wagon were found, but the people had gone and no trace of them can be found."

"A great number of men were in and around the timber about the lake fishing and hunting, but no authentic reports have been received from them, and it is feared there has been loss of life as it is known that the timber in that district has been burning since Thursday night."

AT ABERDEEN.

ABERDEEN, Washington, Sept. 15.—The conditions in regard to the forest fires in this section have materially

changed for the better. The reports of loss of life in certain instances have not been confirmed, all those having been reported as lost, now being accounted for, although there were some hairbreadth escapes and startling experiences in the Hoquiam river country. Lumbermen said that the fire was mostly in the brush, dead wood, etc., and that green timber has not been injured materially.

AT PORTLAND.

PORTLAND, Oregon, Sept. 15.—The smoke was thicker in Portland this morning than at any time this year. Between midnight and daylight, it was impossible to see fifty feet away and lights could hardly be distinguished from the nearest sidewalks.

In the harbor steamboats did not dare to stir as the smoke was so dense.

In Multnomah and Clackamas counties the fires have practically burned out and the settlers are returning to their homes.

Along both sides of the Columbia river, fires are still burning, though the worst is over. In Oregon as far as possible, only two lives have been lost.

The situation in Coville county, is still deplorable. Twelve lives were lost along the Lewis River on Saturday. In Multnomah and Clackamas counties the fires have practically burned out and the settlers are returning to their homes.

It is not unlikely that there has been loss of life there.

## PLACE FOR THE KING OF FORGERS

Convict Becker Will Be  
Given Position in a  
Chicago Bank.

SAN FRANCISCO, Sept. 15.—The Bulletin says:

Charles Becker, the king of forgers, who is now in San Quentin prison, has been offered a good position in a Chicago bank when his term of imprisonment expires.

His office will be that of an expert in the bank, and his duties will be to pass upon the genuineness of the paper that might be presented; that the regular clerks are in doubt of. He has been offered a salary of \$200 a month.

Becker was at the head of a gang of sharpshooters that raised a draft on the Nevada Bank of this city, calling for \$12, to \$22,000, Becker doing the pen work.

Becker was sentenced to seven years' imprisonment and will be released September 13, 1903. His companions received short sentences.

## REBEL HAS QUIT FIGHT

COLOMBIA WILL LIKELY HAVE  
PEACE FOR A TIME AT  
LEAST.

WASHINGTON, Sept. 15.—The State Department has received a cablegram from Minister Hart at Bogota, Colombia, which says that the revolutionary General Canzales, who has been operating with a strong force east of Bogota, has surrendered.

This is regarded as of the utmost importance to the Government authorities, who consider that it assures the pacification of the whole Eastern region.

The Colombian Government also has announced the capture of a Government war vessel of a revolutionary attack several days ago upon the Magdalena river.

## CZAR WILL NOT VISIT THE POPE

ROME, Sept. 15.—The announcement that the Czar, when he returns the visit of King Victor Emmanuel, will not call on the Pope, has seriously disturbed the Vatican. It is said that the Russian Minister to the Holy See will purposely be absent from Rome during the journey of the Czar here, so as to render it impossible for the Czar to visit the Pope.

Papal diplomacy is doing its utmost to prevent such an awkward incident, which is attributed to the desire of the Czar to show his displeasure at the Pope's action in withdrawing the Papal Nuncio from The Hague because he was not invited to take part in the Peace Congress.

## BOTH YOUNG MEN WERE FOUND DEAD

ANN ARBOR, Michigan, Sept. 15.—Two young men, L. W. Bruskie and Joseph Klerzek, of Posen, Michigan, were found dead in the Newman House here today. The men said when they retired that they were not accustomed to using gas light. It is supposed they got up in the night for some purpose and turned on the gas, thinking this would produce light. They had evidently been overcome when trying to reach the door.

## AN INJUNCTION TO STOP THE FIGHT

FRANKFORT, Kentucky, Sept. 15.—Attorney General Pitt is preparing a petition to have an injunction filed in the Jefferson Circuit Court tomorrow restraining the Southern Athletic Club of Louisville from permitting the Corbett-McGovern prize fight in that city, or elsewhere in Kentucky. The case will be heard at Louisville Wednesday.

## FIRES RAGE IN WILLITS DISTRICT

SAN FRANCISCO, Sept. 15.—Word has been received in this city that forest fires are raging in the vicinity of Willits, in Mendocino county, and that the mills of the California North-western Railway have been destroyed and much other railroad property threatened with destruction.

## BOTH WILL HANG FOR THEIR CRIMES

HONOLULU, Sept. 9. (via San Francisco, Sept. 15).—There have been two convictions in the First Circuit Court this term. The first was that of George Perria, who killed John Watson by stabbing him, and the second was a Japanese named Kimura, who cut the throat of a woman with whom he was consorting in April last. Both murderers must hang under the Hawaiian law, unless appeals are taken or they are pardoned by the Governor.

## TRAINMEN WILL ACT CAREFULLY

THEY PROPOSED TO SUBMIT DEMANDS  
FOR AN INCREASE OF WAGES IN  
THE PROPER WAY.

CLEVELAND, Sept. 15.—Grand Master H. H. Morrissy of the Brotherhood of Railway Trainmen, today authorized the following official statement:

"The different stories that are arising pertaining to a movement on the part of the conductors and trainmen in the western country for a raise in wages are in the main inaccurate and misleading."

"They probably grow out of the fact that a meeting of the general association of the Order of Railway Trainmen for this territory was formed in June at Kansas City, at which time the

increase of pay for men in train and yard service was discussed.

"It is the general belief among the men in these capacities that owing to the vastly changed conditions now, as compared with those in existence at the time the present wage standards were made, they are entitled to some additional compensation and they are now considering the propriety of asking for it."

"But if anything is done through these organizations in this direction, it will be along orderly lines and in answer to the long established policies and laws of the bodies affected."

## ALAMEDA SMALL BOY DASHES FLAMES TO SAVE HIS BROTHER.

ALAMEDA, Sept. 15.—Harry Olson, the 10-year-old son of Martin Olson, who resides at 2308 Blinding avenue, proved himself a hero Saturday night when he saved his 8-month-old brother from suffocation by leaping through a burning doorway and carrying the child down a flight of stairs to safety.

It appears that Saturday night Mr. Olson returned from his work in San Francisco, and being very tired, he laid down on a lounge located on the lower floor of the house and went asleep. Mrs. Olson had early in the evening put the children to bed upstairs. The baby was placed in a front room by itself while the other three children slept in a rear room.

Mrs. Olson left a lighted lamp on the

floor by the door that opened between the two rooms. She had been gone about an hour when the lamp exploded. The noise and smoke awakened Frankie, the 6-year-old boy, who in turn awakened his 10-year-old brother Harry.

The youthful Harry seeing the danger of his infant brother rushed through the burning doorway, seized the half-suffocated baby in his arms, and after throwing a blanket over its head, he dashed out, carrying the child down stairs. He aroused his father, who after a great effort managed to extinguish the fire which had by that time gained considerable headway. The boy hero was slightly burned about the face and hands but he had worked so quickly that he was but slightly injured.

## CALIFORNIA PLUS FUND IS BEFORE THE HAGUE COURT.

THE HAGUE, Sept. 15.—The hearing of the claim of the United States against Mexico growing out of the Plus Fund of California, commenced here today before the International Court of Arbitration.

At the opening of the court the Foreign Minister, Dr. R. Melvil Baron van Lindon, reviewed the history of the court which, he said, had been ready for business since January, 1901, but lacked litigants.

He heartily congratulated the two over-sea republics on taking the initiative and hoped the outcome and experience of the court would contribute powerfully to the maintenance of the peace of the world.

Dr. Matsen, president of the court, thanked the minister for his friendly

greetings and said he hoped the court would become the center of international right. The President then opened the first session of the International Court, expressing the hope that the work of the tribunal would harmonize with the sublime idea which led to its establishment and said a glorious result was anticipated from the court, namely to facilitate the peaceful settlement of disputes between States on the basis of respect for right.

The American and Mexican republics expressed their thanks for the welcome and said they had full confidence in the impartiality and equity of the court. In declaring in advance their intention to abide by its decision, the Mexican republics hoped that both great and small powers would follow the lead of the two great North American republics.

## ODD FELLOWS MEET IN THE EAST.

THOUSANDS OF VISITORS ARE IN  
DES MOINES TO ATTEND  
ANNUAL SESSION.

DES MOINES, Iowa, Sept. 15.—With special trains arriving from all parts of the country and the attendance already having reached 30,000, the seventy-eighth annual session of the Sovereign Grand Lodge of Odd Fellows was formally welcomed to this city this morning by Governor A. B. Cummins and Mayor Brenton in a public session in the new Auditorium. Addresses were made by various Iowa officers of the order.

The response was made by Honorable A. Cable, of Covington, Ohio, Grand Sire.

Upon the conclusion of the welcoming exercises, the Sovereign Grand Lodge was formally called to order. The report of the Grand Sire, which was submitted at noon, indicated that there were 127 grand lodges established of which six were in foreign countries. The total number of subordinate lodges is 12,792 and subordinate encampments 2750. The entire membership of the order reaches the number of 1,022,272. During the year there were 99,393 initiations in the subordinate lodges and including those initiated in other branches the total reached 185,846.

The amount of relief disbursed was \$3,939,785, an increase of \$203,093. Revenues from all branches \$10,826,976, increased \$866,026; expenses \$8,786,195; increase \$456,853; surplus revenues \$2,039,775; invested funds, \$29,952,769; increase, \$1,309,077.

The report says that since 1830 there has been 2,445,120 members initiated into the subordinate lodges; 2,566,907 members relieved; 256,606 widowed families relieved; 652,254 members deceased. Total relief \$192,665,214; total revenues, \$246,400,422.

## SMOKE FROM THE FIRES IN THE NORTH.

WEATHER PROPHET TELLS WHY  
THE SUN IS OBSCURED  
AROUND BAY CITIES.

SAN FRANCISCO, Sept. 15.—This city is enveloped in a haze of smoke and fog this morning.

Superintendent of the local Weather Bureau Alexander G. Meade is authority for the statement that the smoke had its source in the forest fires now prevailing in Oregon and Washington and that the smoke is sweeping down the coast to the stations in Oregon and Washington and along the California coast from San Francisco northward.

There is little or no wind here, and the chances are that the peculiar conditions now obtaining will prevail for several days yet.

## LETTERS ISSUED IN FAIR ESTATE

SAN FRANCISCO, Sept. 15.—Judge Carroll Cook today issued letters of administration in the estates of the late Charles and Caroline Fair to Herman Oelrichs, Joseph Harvey and Charles Neal, Oelrichs acting for Mrs. Oelrichs and her sister, Mrs. Vanderbilt, and the other gentlemen acting for Mrs. Hannah Nelson, mother of Mrs. Fair.

## PAPAL DELEGATES

ROME, Sept. 15.—The Vatican has definitely decided to send the most Rev. Donnie Falconio to Washington as Papal Delegate in the United States. Mr. Falconio is now an Apostolic Delegate for the Dominion of Canada.

## U. S. WEBB WILL SUCCEED TIREY FORD.

Governor Gage Has Ap-  
pointed Him to Fill  
the Vacancy.

SACRAMENTO, Sept. 15.—Governor Gage today appointed U. S. Webb, District Attorney of Plumas county, to the position of Attorney-General of California, vice Tirey L. Ford, resigned.

Mr. Webb was nominated for the office of Attorney-General at the latest Convention of the Republican party.

## GRAND JURY WANTS LIGHT.

THE PRESENT ALDERMEN OF ST.  
LOUIS WILL HAVE TO  
EXPLAIN.

ST. LOUIS, Sept. 15.—The Grand Jury today continued its inquiry into the city lighting deal and other legislations. Subpoenas have been served on all the members of the present House of Delegates to appear before the Grand Jury today.

They will be questioned as to what they know about the city lighting bill and of the recent defeat of measures introduced for the regulation of the street car traffic in St. Louis.

It is alleged, despite the outcry against the frauds which have been uncovered, that the covert use of \$50,000 in the House defeated the street railway bills mentioned.

Charles A. Gutke, one of the five former members of the House of Delegates, confined in the City Jail on charges of bribery and perjury, was today informed of the death of his 11-year-old son, who had been sick for some time. The father wept at the news.

## HE MURDERED FOR A SMALL THING

ST. THOMAS, Ont., Sept. 15.—William King, a farm hand under arrest here, has confessed to having murdered 15-year-old James Freeman, a son of a farmer near here, because he was jealous of the boy's ownership of the privilege he enjoyed on the farm. King wanted to take the boy's place in the family.

## RUSSIA MUST LET GO HER GRIP

TIEN TSIN, Sept. 15.—Major General Greagh, the British commander has returned here. It is now said that the British will not restore the Peking-Shan Kwang section of the Peking New Chwang road until Russia relinquishes possession of the New Chwang portion.

## F.FTEEN MEN AMONG MISSING

BLUEFIELD, Va., Sept. 15.—A heavy explosion of gas occurred in the Algoma coal mine, located on the north fork branch, at 11 o'clock this morning. Fifteen men are reported missing.

## MAY END THE BIG COAL STRIKE

RIGHT REV. SAMUEL FALLOWS WILL TRY  
AND BRING PEACE TO  
THE MINERS.

PITTSBURG, Pa., Sept. 15.—Right Rev. Samuel Fallows of Chicago, who was reported to have left that city to meet President Mitchell of the Mine Workers at Pittsburg today, could not be found at any of the hotels and as far as could be ascertained had not arrived here at noon.

The Chronicle-Telegraph says this afternoon:

"An important conference is scheduled to be held in Pittsburg before the close of the day that may tend to a speedy termination of the coal miners' strike in the anthracite region. President Mitchell of the United Mine Workers and the Right Rev. Samuel Fallows of Chicago, Bishop of the West and Northwest and rector of St. Paul's Episcopal Church, have arranged to meet here today."

"A great deal of secrecy has been thrown around the proposed conference and various reports are in circulation. One is to the effect that a meeting will be held with former Senator William Flynn and M. K. McMullin, who attended the Harrisburg conference the other day."

"Bishop Fallows is well-known among miners and operators and he is given the credit of settling a serious dispute in Illinois several years ago."

ference between Governor Stone of Pennsylvania, President Mitchell, the presidents of the three anthracite districts and others who have been crying to end the strike."

"Did Governor Stone propose that the Pierpont Morgan any of the anthracite presidents?"

"I did not understand that he was representing anyone besides himself."

"Is a settlement any nearer because of the conference?"

"No."

"Did Governor Stone propose that the miners should return to work on a promise of concessions being made afterward by the operators?"

"No proposition of that kind was submitted. There is no foundation for the report that men are to return to work on a promise that the operators will make concessions and arbitrate afterward."

"Would the miners return to work under such an arrangement?"

"They would not."

"Are you as confident as ever of winning?"

"I am certainly very hopeful now that the strike will be ended in our favor."

The big defense fund that is being collected at the national headquarters in Indianapolis, Mr. Mitchell said, is proving sufficient to relieve the distress in the region. About 25,000 miners have left the region since the strike began, leaving about 130,000, he explained, to be cared for.

"Are the troops to be withdrawn from the region?"

"Not that I know of."

"Is any coal being taken out of the region?"

"A little is going out, but no new coal is being mined. Most of the coal now being shipped was mined before the strike began. No mines are being started and no members of the organization are returning to work."

## WHAT MITCHELL SAYS.

INDIANAPOLIS, Ind., Sept. 15.—"I cannot predict when the anthracite strike will be settled. If anything is being done by the other side, I don't know of it."

John Mitchell, president of the Mine Workers, who is at strike headquarters in Wilkesbarre, Pa., made this statement today in a long distance telephone interview with the News.

"Nothing toward a settlement was accomplished at the Harrisburg con-

## OAKLAND WOMAN IS ROBBED OF \$75 ON THE BOAT.

SAN FRANCISCO, Sept. 15.—Mrs. T. J. Crowley of Oakland was robbed of a purse containing \$75 in money and jewelry on the ferryboat Piedmont this morning while making a trip to this city.

Although deckhands were found who saw a man with the purse in his hands, the culprit could not be singled out in the crowd and the police are on a blind scent in the case.

HEALTHY AND GROWING.

The vital statistics of Oakland disclose two facts of the first importance to this city. Each is a good reason for congratulation, and taken together they furnish abundant cause for rejoicing.

First, the reports of the Health Office show that the birth rate is far in excess of the death rate. Last month it was more than double, the births numbering 135 and the deaths 66. This shows the city to be in a remarkably healthy condition. Of course, this ratio is abnormal, but right along there is a wide margin of births over deaths, the average being above twenty per cent. For the whole country it is about one per cent.

A still more significant feature of our vital statistics is the showing they make of gross population. Our present birth rate indicates that Oakland has a population not far from 30,000. This estimate is borne out by the school census, the post office receipts, the city directory and the increase in new dwellings.

During the past year sporadic cases of small-pox have occurred in different parts of the city, but local quarantine has in each case prevented the spread of infection.

And not a single death from small-pox has been reported.

It has been the same with scarlet fever and diphtheria.

Every time these contagious complaints have appeared, investigation has shown that the infection came from abroad.

Here these diseases run their course and end with the individual cases, showing that the general conditions in this city do not favor the spread and propagation of zymotic diseases. No doubt the prompt suppression of these disorders is due in a considerable degree to the vigilance of the Board of Health, but the fact of chief concern is that Oakland is an extraordinarily healthy city and is inhabited by a few hundred population.

POISONED BY IGNORANCE.

The danger of using chemicals without understanding their nature is illustrated by a dispatch from Paris, Texas. A farmer in the Indian Territory sprinkled Paris Green over his cotton plants to kill worms. As a result seven cotton pickers were killed in one day by inhaling the deadly stuff. Of course the farmer was overwhelmed with surprise and horror at the result of his experiment, but that does not repair the harm he has done. No man should meddle with poisons without first ascertaining the purposes for which they can be safely used and the manner in which they can be safely handled. It was pure ignorance that caused this farmer to send seven poor colored laborers to their death, but it is the kind of reckless ignorance that should not be tolerated. The law should protect human life from the vagaries of ignorance and folly, just as it protects life from malice and viciousness. The plea "I didn't mean to" cannot recall the dead or assuage the grief of the living. The stay and prop of a family is not restored by the paltry excuse of lack of intention. Death is no sweeter at the hands of a fool than it is at the hands of a knave. Men who handle deadly weapons and deadly poisons should be made to observe proper precautions or suffer penalties when they destroy life.

THE FINANCIAL STRAIN.

Not long ago THE TRIBUNE pointed out the danger of placing all the great industrial enterprises of the country on a funded debt basis, requiring the payment at stated intervals of immense fixed sums in the form of interest. It is now apparent that the strain thus placed on the public credit is becoming exceedingly tense. So severe has it become that Secretary Shaw has been forced to anticipate interest payments on Government bonds. The immense sums of ready money demanded quarterly and semi-annually to meet interest payments has caused such a pressure on circulation that even the vast volume of circulating medium is scarcely sufficient to meet it. Nevertheless interest-bearing securities are increasing at a tremendous rate, tightening the strain and making it more difficult to preserve the financial equilibrium. The development of the trust principle is responsible for it all. That it is an element of danger even the trust promoters discern, but a process of this kind once inaugurated must work out to its logical end. However, the harvests are bounteous and the volume of gold in the country is increasing at the rate of nearly \$50,000,000 a year. At the same time the National Treasury holds a vast reserve, which Secretary Shaw says he will use to prevent a financial stringency. This is reassuring, but the fact that it has been necessary to anticipate interest payments on the National debt is of evidence of stringency.

IF NOT PERKINS, WHO?

From time to time mention is made in the public prints of some unnamed Republican opponent of Senator Perkins. It is stated, by what authority we know not, that professional political manipulators are spending money to secure the nomination of legislative candidates who will vote for this anonymous aspirant instead of Senator Perkins.

Who is this mysterious candidate for the Senate?

The people are entitled to know who it is that aspires to represent them in the United States Senate. They want no dark lantern candidate nor no dark lantern campaign to elect somebody whose identity is to be revealed only after the Legislature is elected.

What claim has this mysterious candidate, if there be such, on the suffrages of the people of California? What are his qualifications, his affiliations, his record?

If citizens are asked to vote against Senator Perkins in voting for legislative nominees, they are entitled to know for whom they are to vote and on what grounds. Mystery, secret manipulation and anonymous candidates are repugnant to our system of government and the spirit of the Republican party. They are never in the interest of the people, nor indicative of fair play.

If any Republican is opposing Senator Perkins in the hope of succeeding to his place, let him come into the open light of day that the people may see who he is and be able to form a judgment of his motives and his qualifications.

Senator Perkins has a record that is an open book. He presents himself fairly and honestly to his constituents, asking their approval of the services he has rendered. There is no secrecy about his candidacy or his methods. Who is it behind the bush against him?

Senator Perkins has made the most useful Senator California ever had. He has been diligent, zealous and efficient in protecting the State's interest at Washington. He has fulfilled every promise he made to his constituents. He has been true to the people and the principles of the Republican party. His fidelity is unimpeachable, his record unassailable. He has been endorsed by the Republican State Convention and by a great majority of the Republican county conventions. He is the only avowed candidate of his party for the Senate, and is the undoubted choice of a large majority of the citizens of California. No reason has ever been given for displacing him for another man.

He can be defeated only by intrigue and secret manipulation. If there is an intrigue to foist an unknown candidate on the population, the fact should be made known, and the identity of the concealed aspirant revealed.

Who is he?

Sir Thomas Lipton will be a Liberal candidate for Parliament in the Hornsey division of London. We hope he will fare better in his political aspirations than he has in trying to win back the America cup, but he will have to fight to be elected. The division has been staunchly Conservative for a good many years, and there must be a big change in sentiment if Sir Thomas is to win. Parliamentary campaigns in the large municipal divisions cost immense sums, candidates not infrequently spending from \$10,000 to \$50,000 to secure an election. Sir Thomas is rich and a good spender, and that is probably why the Liberals selected him to stand. He will have the sympathy of Americans even if he doesn't win.

The Executive Committee appointed by Chairman Patton to conduct Frank Lane's campaign reminds one of Dooley's maxim, "Thrust your neighbor, but cut off his ears." It is made up of men who opposed Lane for the nomination, and the great majority of them would like to do with Gavin McNab what St. Patrick did to the snakes in Ireland. The Scotch boss will not be liable to do much business with that committee.

The Utah Convention gave Cuban Reciprocity a black eye in its platform. Wisconsin, Minnesota, Kansas, Nebraska, Washington and California have already declared against this scheme to crush the beet sugar industry, which shows that the sugar trust is not going to have its way without overcoming sturdy resistance from a large number of Republican States.

A VALENTINE COST HER A FARM.

The will of the late farmer, Leon Goodrich of Riverside, Cal., provides that a farm given to his four sons while the youngest child, a daughter, be given \$1. Six years ago a valentine was sent Farmer Goodrich, and he accused the daughter of sending it. She professed innocence, but her father would not believe her and he never forgave her.—Philadelphia Press.

ANNUAL MEETING OF EQUALITY CLUB

PROMINENT WOMEN OF ALAMEDA COUNTY PLEAD FOR EQUAL SUFFRAGE.

Saturday the annual Convention of the Alameda County Political Club was held in the rooms of the Oakland Club, with a large number of enthusiastic women present.

The following officers were elected for the coming year: Mrs. Caroline Emery, president; Mrs. Thomas H. Speedy, first vice-president; Mrs. Emma Shafter Howard, second vice-president; Mrs. T. C. Hall, third vice-president; Mrs. E. E. Greenman, fourth vice-president; Mrs. Louis Wainwright, fifth vice-president; Mrs. C. Mitchell, secretary; Dr. A. P. Patterson, treasurer; auditors, Mrs. H. L. Eastman and Mrs. L. N. Chapman.

Mrs. William Keith of Berkeley, in a brief address, said that the next State Superintendent of Schools bids fair to be a woman.

Luncheon was served in the club dining room at 12:30, and at 2 P. M. the afternoon session was called to order by the president, Mrs. Emery. Dr. Dorothy Moore and Mrs. Florence Jackson Stoddard were the speakers of the afternoon. Dr. Moore made an eloquent plea for the Juvenile Court.

Mrs. Stoddard talked on the "Women of North and South America." After contrasting life on the two continents, she said: "We have attained to all we are by the effort to raise ourselves. Only that which we have attained through unceasing effort is the thing to be proud of."

"The climatic spirit of forty-nine is dead," Californians are the best men in the world, and the politicians are best of all. If any woman wants anything very much a man always gives it to her."

Resolutions endorsing the proposition of equal suffrage to all citizens, irrespective of sex, calling upon the State Legislature to amend its laws so as to permit women to vote, and thanking different people for their aid to the Convention were adopted unanimously.

PEOPLE'S THEATER OPENS TONIGHT

THE PIECE FOR THE INITIAL PERFORMANCE IS "THE QUEEN'S COURIER."

The People's Theater, formerly known as Elit's Hall, at the northeast corner of Twelfth and Webster streets will open tonight as a regular place of amusement. There will be a performance given every night, as also a matinee on Saturday. The opening piece will be "The Queen's Courier." The piece is founded upon Italy's fight for independence from Austria. Baron Lintz, the Austrian Ambassador, intrusts certain important papers and dispatches to Hugh Stoneleigh, "The Queen's Courier," who falls in love with Idalia, an adventuress and Italian spy, whom he meets on the eve of her departure for Paris at a masquerade ball in the Cafe Minuit, Paris.

Two Italian spies discover the purpose of Stoneleigh's visit to Italy and arrange to intercept him, for the purpose of securing possession of the papers, which will be of great value to the Italian government. Stoneleigh is waylaid in the mountains of the Simplon Pass in Switzerland, where he refuses to part with the papers and is shot by Baron Lintz. Stoneleigh destroys the documents by throwing them in to the caldron, and his life is saved by Idalia, who had discovered there was a plot to kill Stoneleigh and followed him in time to render assistance. Meanwhile, Baron Lintz has been informed by the conspirators that Stoneleigh was false to his trust, and had turned the papers over to the Italian government. Instead of following his instructions to deliver them to no one but the Austrian general at Milan, Lintz immediately issues orders for the arrest of Stoneleigh and Idalia as an accomplice. The two are captured by the Baron but escape under fire, by a secret pass in the mountains. Being captured, afterwards, explanations ensue and they are allowed to go on parole. The piece is full of action and thrilling situations, giving the different members of the company many opportunities to display their qualities as actors.

Performances will commence promptly at 8:15 in the evenings and at 2:15 at the matinees. Children will be admitted for ten cents at both matinees on Saturday and Sunday. The orchestra will be under the direction of Professor Max Lercher.

ESTATE APPRAISED.

The estate of William Butler, deceased, consisting chiefly of realty in San Francisco has been appraised at \$1030.
